## LATERAL SOLUTIONS

5 Day Horsemanship Camp

### LONGE LINE LOGIC

Lateral Longeing (Lunging) is a term Pat uses to describe a communication system between human and horse. I will show you how to turn your frustrations into fascinations by helping you become a Lateral thinker. Learn to develop your horse mentally by developing your ability to communicate more effectively. The communication system is built on the six yields. The yields are first performed on a 12-foot lead rope, then increasingly longer lengths of rope. Used separately or in combination, the yields turn into a series of maneuvers that exercise the horse's mind along with his body.

When you start to use lateral thinking as a ritual, your horse can become mentally collected in an extremely short amount of time. Learn to use the same lateral thinking while in the saddle and take your riding to a new level of Communication, Understanding & Connection. This concept will help your horse to become more engaged. As you progress you will find mental collection gives you emotional collection, which then gives you the ability to get the horse physically collected. Then you are on your way to building a lifetime partnership.

**REALISE THAT EVERYTHING STARTS IN THEIR MIND, GOES THROUGH THEIR BODY AND DOWN THEIR LEGS TO THEIR FEET.**

This is a 5-day Levels 2 through to 4, Online, Freestyle & Finesse Camp. Tuition: \$1250.00.  
Camping & horse yards please contact Banyandah Naturally, which has accommodation options available.
